Hazardous Weather

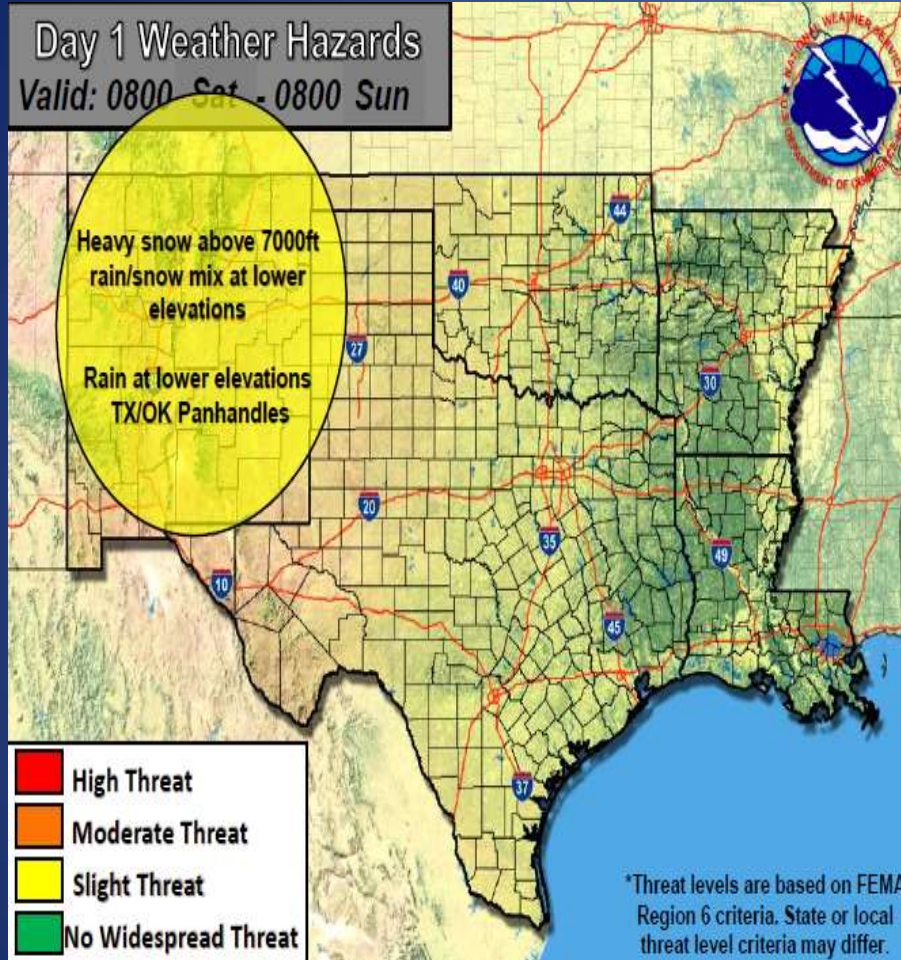

Rain is widespread this morning, but will decrease this afternoon with the best chances in the eastern Permian Basin. Rainfall amounts of one quarter to one half inch can be expected with isolated amounts as high as an inch are possible. The rain is falling slowly so most should soak into the ground though localized minor flooding is possible mainly in urban areas and areas of poor drainage.

Hazardous Weather

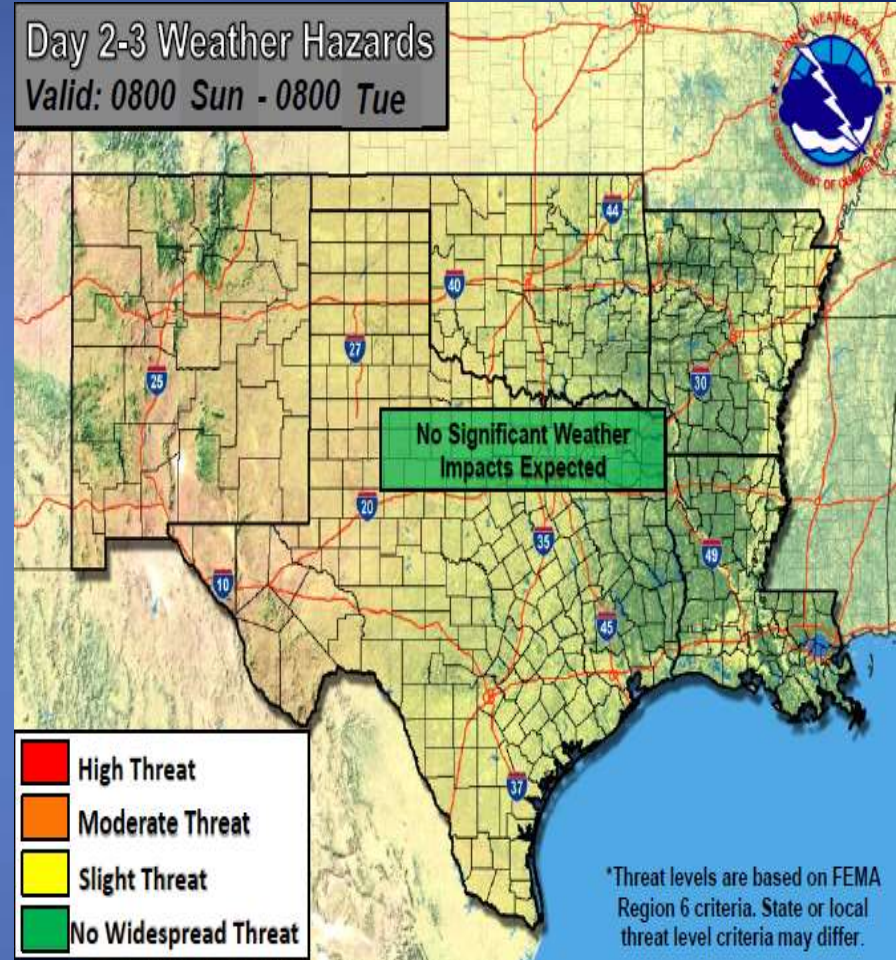

Day 1 Weather Hazards

Valid: 0800 Sat - 0800 Sun

Day 2-3 Weather Hazards

Valid: 0800 Sun - 0800 Tue
